# Projects

# Two Main Goals

- Have fun!
- Learn to code (for the Pebble platform)

# Judging

- Technically Impressive -- you don't have to do all of these! (30%)
  - Make use of the Health APIs (<https://developer.pebble.com/guides/events-and-services/health/>)
  - Are compatible with the entire Pebble Family (aplite, basalt, round)
  - Make use of the Timeline API (<https://developer.pebble.com/guides/pebble-timeline/>)
  - Have a Clay Configuration Page (<https://github.com/pebble/clay>)
- Are unique and creative (35%)
- Are useful/make life easier (35%)
